

February 10, 2004

To: President Bill Schneider

CC: Secretary Jeff Carpenter

Effective this date I am resigning my membership from the Evergreen Fire Company.

It is very unfortunate for my activity within the organization to have reached the point that I must terminate it, however after the events of the past year, I believe that it is in my best interest to not be involved with this organization.

I continue to feel that with the financial mishandlings and the lack of interest or the seriousness of the fire company to continue to pursue the missing money is a negative direction for the company to be lead.

Additionally the backstabbing and slander that is taking place towards myself and other members is by no means professional and is also something that I choose not to associate myself with. It also bothers me greatly that the membership of the fire company will allow members that refuse to fully participate in a police investigation to remain in an active status in the company.

This being said, I will return the department issued key, pager, and license plate when I receive my personnel records. Please feel free to contact me at 412. [REDACTED] to advise of a time when these items can be exchanged.

Sincerely,

Justin Lubarsky
Fire Fighter
